PEOPLE who are so ready to criticize the Administration and the Republicans in Congress for the hesitancy in recogthe so-called Brazilian republic should pause long enough to allow themselves to consider the circumstances. An exchange calls attention to the fact that Brazil has no representative governthe present rule on the will of the peo When Brazil becomes a republic in fact it will be time enough for the United States to recognize her.

THE St. Paul Globe should read up on the history of West Virginia's gubernatorial contest before publishing alleged "facts" about it. Who has been telling that enterprising sheet that the Contest Boston, Jan. 20.—An official list of losses by the Thanksgiving day fire in this city is made public by the Boston protective department. From these returns it appears that the total loss was \$3,841,388. The insurance involved was \$5,305,033, while the loss to insurance companies was \$3,173,438, or a little over 50 per cent. of the total insurance, and \$2.6 per cent of the total loss. The loss not insured was \$667,951. Committee discovered an instance where the Republicans voted a gang of seventyfive negroes at three different points in one day? Is this another specimen of the work of the newspaper liar who is employed by the Democratic State Committee to cultivate sympathy outside of West Virginia with exaggerated accounts

Brice Not the Only Boodler

Heware of Ointments for Catarrh that Contain Mercury,
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do as ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and nuncous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co.

La Sold by Druggists, price 75e per bottle. It seems that Brice was not the only Senatorial aspirant in Ohio who employed boodle methods. Representative Eggerman, of Hardin county, received \$1,000 from Thomas, to assist him in car rying his election, with the understanding that he would vote for Thomas. The day after the election Eggerman was sent \$1,000 from Brice-\$500 for his own personal use, and the other half thou sand to be devoted to the building fund of a church in which he was interested Eggerman didn't like to send Brice's money back, so attempted to make a dicker with Thomas, which failed. The fact that Eggerman voted for Brice in Photographers are the most charitable of men, for they are always anxious to take the best view of their fellow creacaucus bears its own comment.

Colored People and the World's Fair. The Louisville Courier-Journal endorses the proposition to devote a department of the World's Fair especially to the negro race. The matter is being strongly urged by prominent colored men in Washington. The Courier-Journal says that as the amount of progress made by the negro in this country is a disputed question an exhibit of

what his intellect and industry have done would interest the people of all countries.

It is undoubtedly true that such a display would be an incentive to invention and activity for the negro and productive of much good, as it would prove an effective object lesson. Such a department in the Exposition would appeal to the enthusiasm of the colored race, and they would doubtless take a pride in making would doubtless take a pride in making their representation us perfect as possible, their representation us perfect as possible.

Easily Understood.

Some Democrats are very much exercised over the proposition to allow Gen Goff to argue his case before the joint assembly, and they affect to believe that for him to do so would be highly improper. These gentlemen conveniently forget that such a proceeding is not at all unusual in the hearing of contested election cases by legislative and judicial

It is a common occurrence for contestauts for seats in the United States Con gress to appear before that body in their own behalf and to argue their cases on the floor of the House pending the final vote. A notable case was that of Frank liurd, the Ohio Democrat, whose elo quent argument in his own behalf was listened to for hours by the House of Representatives just before the vote which unseated him was taken. Other notable precedents might be cited to illustrate the perfect propriety with which both Goff and Fleming could argue their cases before the assembly.

It would not occur to Judge Fleming's friends that such a proposi tion is not at all proper had they confidence in the ability of the Judge to meet General Goff in the arens of debate to discuss the legal merits of their respective cases. The people understand the reasons that prompt the vigorous protests against General Goff's offer to argue the case with Judge Fleming, as thoroughly as they understood the re-

fusal of the State Committee to allow the Judge to discuss the issues of the cam-paign with General Goff on the grounds that their champion was not familiar with the questions of the day.

Farm Mortgages and the Ceran After due consideration the country, the farming communities in particular, will appland the action of the Senate Committee in reporting adversely the bill to require the Superintendent of the Census to ascertain what percentage of people own their farms, the number of farms under mortgage, the amount thereof, etc. It is true that there has been some demand for a collection of such statistics, but it has come from political demagogues who imagined that they would demonstrate their pet theory that the farmers of the United States are on the brink of ruin and that nearly all the farms of the country are under mortgage. Whatever the statistics would show, the action of the Senate Committee was right, for it will save a useless expenditure of money.

The Chicago Tribune, in commending the action of the committee, makes the point that the statistics demanded, to be of any value, should show how much is actually owing on these incumbrances, and to what extent they represent either the purchase money of farms or money borrowed because the farmer. will appland the action of the Senate

The Art of Sneezing.

Circiand Times.

La grippe has taught the world the art of sneezing. It is an art that very few people understand. There is the person whose face undergoes a variety of violent contortions, which makes everybody in the vicinity of the coming, phenomenon—when he does finally "let'er go," if it is a little, apologetic, swashly sneeze that reminds one of the household cat—feel indignant because they, expected something boisterous and magnificent; there is also the person who hurls a loud and vociferous, dynamite bomb sneeze without, any preliminaries into a company, and makes everybody jump, and the gentlemanly person who thinks a sneeze impolite and stifles it in his handkerchief in a very painful manner. Sneezing correctly is an accomplishment, and in these days of influenza some smart victim of the disease ought to start a sneezing school, so that everybody could learn how. That beautiful glossy sheen, so much admired in hair, can be secured by the use of Ayer's Hair Vigor. There is nothing better than this preparation for strengthening the scalp and keeping it free from dandruff and itching erup-
